

East Turlock Groundwater Sustainability Agency Update

Stanislaus County Water Advisory Committee

June 29, 2022

Updates

- Our Turlock Subbasin GSP was submitted to the state in January
- We have also completed our first annual report and submitted that to the state
- We have passed a budget for FY 2022-23
- We have held three workshops
- We are participating in a regular interagency coordination meetings with EWD, TID, and BCWD on potential opportunities for project collaboration and other areas for coordination

▶ GSP Project Workshop April 2022

- Workshops on Projects- April 2022

The Board detailed the projects the ETSGSA included in the GSP.

- Lessons Learned:
 - We are in a good position with some of the biggest projects already underway
 - Develop a matrix of feasibility for projects
 - Since the workshop there has been interest in further exploring the option of ASR wells and will be setting up a call to learn more about potential applicability in the ETSGSA

Management Actions Workshop May 2022

The Board had a robust discussion about the various management actions included in the GSP as well as expected timelines for implementation and funding.

- Lessons Learned:
 - There was significant interest to hold a workshop in September regarding the various ways to measure groundwater extraction
 - We are working on exploring different methods of funding
 - This is an iterative process

► Stay Engaged!

The ETSGSA is committed to ensuring the implementation of the GSP is a landowner driven process, we welcome your input and attendance at any of our regular meetings or workshops.
